NEWSLETTER

This is an example newsletter file, for testing the website automated newsletter email system. It's now possible for those that have a login on the website to subscribe/unsubscribe to newsletters. When the website administrator uploads a new newsletter it is emailed automatically to those that have subscribed... coool!

The awards page now shows mini photos, if they exist – and the gallery page is now a wizzy flash page with moving pictures etc.

Last thing to do now is setup the YouTube admin pages and the website is ready to be checked over for sign off!
